

SATURA® EXTRA MIX

Lightweight, fast-absorbing scalp care - when you want visible support without residue.

Satura® Extra Mix is a high-potency leave-in lotion, created for people who need serious cosmetic scalp care but prefer a lighter, non-oily finish. Developed as a stand-alone or daytime companion to Satura Rosta Balm, this fast-drying formula helps refine scalp condition and support the look of healthier, fuller, more balanced hair.

With consistent use, Extra Mix helps reduce the appearance of dryness, visible irritation, and textural imbalance - leaving the scalp feeling fresher, calmer, and better cared for. It's serious support, in a weightless format.

Where heavy products aren't an option, this is the lightweight solution with heavyweight results.

What It Does

- ✓ Helps improve the visible condition and comfort of the scalp
- ✓ Supports the appearance of fuller, more consistent hair coverage
- ✓ Reduces the look of dry, flaky, or imbalanced areas
- ✓ Delivers botanical support in a fast-absorbing, leave-in lotion
- ✓ Ideal for those who prefer a non-oily feel without compromising care
- ✓ Can be used alone or in rotation with Satura® Super Scalp

Who It's For

- ✓ People seeking cosmetic support for scalp and hair appearance, without heaviness
- ✓ Scalp that looks irritated, dry, or out of balance
- ✓ Hair that appears thin, flat, or patchy in certain areas
- ✓ Anyone needing daily, serious scalp care in a fast-absorbing format

BOTANICAL COMPLEX

Calendula Officinalis – Known to visibly calm and balance delicate scalp areas, especially where dryness or uneven texture appear.

Ginseng Leaf Extract – Helps improve the look of scalp vitality and promote a healthier-looking hair environment.

Nettle Leaf Extract – Traditionally used to support the appearance of stronger, fuller-looking strands over time.

Rosehip Extract – Rich in natural antioxidants to help refine the look of scalp tone and surface clarity.

Thuja Extract – Used in botanical rituals for visibly refreshed and rebalanced skin.

Salicylic Acid – Helps reduce the look of buildup and visibly improve surface smoothness without heaviness.
